Greenleaf Customer Platform

SOW reference	SOW-GL-2026-021
Client	Greenleaf Retail Pvt. Ltd.
Authorised approver	Ananya Rao, Head of Digital (ananya.rao@greenleaf.co.in)
CNCT contact	Rohan Mehta, Sales Lead
Date	2 November 2026
Total estimate	300 hours

1. Purpose

CNCT will design and build a customer mobile app and an admin console for Greenleaf Retail. This SOW lists every feature in scope with its estimate. Each feature will be documented, approved internally by CNCT and approved by the client's authorised approver before development starts.

2. Scope of work

2.1 Customer Mobile App — iOS and Android app for end customers.

Code	Feature	Description	Hours
F1	Sign-up and KYC	Mobile OTP sign-up, Aadhaar/PAN KYC and profile.	60 h
F2	Order tracking	Live order status with delivery ETA and history.	80 h
F3	Push notifications	Order, offer and payment reminders with user preferences.	40 h
Subtotal			**180 h**

2.2 Admin Console — Web console for operations and support staff.

Code	Feature	Description	Hours
F1	Role-based access	Admin, operations and support roles with permission sets.	50 h
F2	Reports and exports	Daily orders, revenue and SLA reports with CSV export.	70 h
Subtotal			**120 h**

Total	**300 h**

3. Approval process

1. CNCT prepares a functional document for each feature.
2. CNCT's internal approver reviews and approves the document.
3. The client's authorised approver approves the feature in the client portal. Approvals given by email or in meetings count only after CNCT verifies the evidence.

4. Only approved features are sent to development.

4. Changes

Any change to an approved feature creates a new version with its revised estimate and reason, and goes through approval again. New features are added through a numbered SOW amendment (SOW-AMD-01, SOW-AMD-02, …).

For Greenleaf Retail Pvt. Ltd.
Ananya Rao, Head of Digital
Date: 2 Nov 2026

For CNCT Technologies Pvt. Ltd.
Rohan Mehta, Sales Lead
Date: 2 Nov 2026
